1160 AM COUNTRY Mets

January 26, 1989

Bill Burrows
709 Division St
Gloucester City, N.J.

Dear Bill,

This will verify reception of WOBM AM on both 1170 and 1160 KHZ on 1/31/88, 3/4/38 and 3/6/88.
WOBM AM now broadcasts 24 hours a day on 1160 KHZ with 5000 watts days, 8900 watts nights. The studio and transmitter are located at 360 Clayton Road, Howell, N.J.
We broadcast Transtar Country in Motorola AM stereo.
We have gotten a few DX reports since moving to 1160 khz.
The furthest report has been from Massachussetts.

Thank you
73s and Good DX
